COMMUNITY MEETINGS TO DISCUSS INTENT TO INCREASE FEES

Alameda County Department of Environmental Health (ACDEH) has conducted a two-year study to overhaul its fee structure so that the connection between cost and service is transparent and better understood.

ACDEH would like to provide education to our business community and the general public on the proposed fees and consider public input on the overall fee structure.

During the community meetings the following will be discussed:

- ACDEH's existing fee structure and needs
- The Fee (Time) Study Process
- Fee Study Results
- Timing of Implementation of Compliant Fees
