Our vision is to exponentially increase the life expectancy of Black youth beyond the age of 25 years - by way of access. We realign individuals with healthier visions of self-using holistic approaches to wellness, -to shift the boundaries that circumscribe our environment. Our mission is to retain high opportunity youth, and streamline them into prospective career paths. We launched in 2015 through Oakland's Youth Impact Hub.</p> <p>Our founder does this work because she believes it's not recognition by the establishment that Black people in the western hemisphere are as in much of need for a translator as anyone else. Our bright minds cuffed for skipping class, intoxicated by the poisons saturating the air - shuffling through pipe-lines of various forms of exile. Many sent to college never return, unknowingly in exile - unavailable to do the healing, enlightenment, and investment thinking</p>	Oakland	Youth & their caretakers
