Presentation of Synthesis of Findings By All In Staff & General Discussion

There was not sufficient time to present this to the membership. A final report will be made available soon.

Discussion of Feb. 5th Convening

Melanie gave an overview of vision for Feb. 5 and discussed a change in challenge tracks based off of information gathered in the listening sessions. A list of new challenge tracks will go out to the membership. All In staff envisions Feb. 5 to be a day of developing action plans, and having the key stakeholders at the table that day is imperative to success. Melanie asked the membership to think about who are the key players to be in the room and to pass their contact information on to staff. Melanie also called on the membership to help spread the word and bring people to the event.
