Alameda County Public Health Department

Alameda County experiences a well-documented epidemic of dental disease that disproportionately affects communities of color and low-income residents. In past decades, the health and well-being of county residents have improved; however, profound disparities by race and ethnicity persist, including in our residents' dental health. Nearly one in three (32.8%) children 0-5 years of age screened at selected Women, Infants and Children (WIC) clinics in Alameda County showed evidence of untreated dental decay (2016). Among students screened through the Oakland Student Smiles program, 45% of students had untreated tooth decay with 15% of students having severe tooth decay (2017). Of children 0-5 years old with Medi-Cal, 32.7% had preventive dental services (2016). Emergency department visits for non-traumatic dental conditions for 3–5-year-olds saw an increase between 2014-16 and 2017-19.

Alameda County is widespread geographically, consisting of 821 square miles and 14 cities. Located on the east side of San Francisco Bay, Alameda County is home to 1.68 million people and is the most racially and ethnically diverse county in the Bay Area. The county population is 38.7% White, 32.4% Asian, 9.9% African American, 6.4% Multi-race, 0.8% Pacific Islander, 0.6% Native American, and 10.9% other. Across all race categories, 22.8% of individuals are of Hispanic/Latino ethnicity. African Americans and Latinos make up a larger portion of the low-income households compared to White and Asian households.

The Office of Dental Health (ODH) has played an essential role in the Alameda County Public Health Department for over 50 years. ODH has been dedicated to addressing inequity through innovative strategies that increase access to best practice and evidence-informed dental services for our populations most in need. LOHP activities focused on reducing disparities in access to oral health care and working in partnership with the community to ensure optimal oral health and well-being of all Alameda County residents. Specifically, the program was designed to prioritize these Medi-Cal eligible populations: children (including 0-20 years old, foster and transition-aged youth), pregnant people, homeless children and families, residents with special health care needs, impacted racial and ethnic groups, and adults 64 years and older. LOHP prioritized these populations because they face substantial barriers to accessing oral care, such as lack of awareness of dental services covered by Medi-Cal and difficulty finding a dental provider who accepts Medi-Cal.

ODH accomplished significant gains during the 2017-2022 LOHP grant cycle. ODH invited stakeholders to join in establishing five Workgroups to identify and remove barriers to accessing oral care for priority populations (Special Needs Dentistry, Homeless Children and Families, Early Childhood, Evaluation and Surveillance, and School-linked School-based Oral Health). An additional Workgroup on seniors in institutional settings was initiated but discontinued due COVID restrictions at these facilities. ODH initiated collaboration with Livermore Valley Joint Unified School District to implement a school sealant program in three elementary schools in an area with no fluoride in the water supply. To support Alameda County school districts' Kindergarten Oral Health Assessment (KOHA) data reporting requirements, ODH developed a multilingual parent handout and SCOHR training with step-by-step instructions on the process of entering data. With support and resources from ODH, a recordhigh percentage (61%, up from 44% the previous year) of Alameda County public school districts reported KOHA data for school year 2020-2021. ODH updated our list of dentists who will accept patients with Medi-Cal, adding 3 new providers in 2021. We distributed multilingual

oral health education, tobacco cessation, and prenatal educational materials to dental clinics per their requests. In partnership with UCSF, we sponsor **Community of Practice trainings** for dental workforce development and offer CE units. Attendance increased by 25% in the last few years with typically over 100 local dental professionals participating. ODH is leveraging existing networks to sustain our **care coordination model** by partnering with CHDP for financial support of Community Dental Care Coordinator services for our priority populations. ODH published our **Oral Health Strategic Plan** 2019-2024 and conducted a mid-point stakeholder survey (instead of an in-person meeting due to COVID) to re-connect, and recruit participants for Workgroups. We continue to strengthen our robust **Oral Health Committee** of the Public Health Commission (our Advisory Group) and established **strong alliances with many partners** such as Alameda Health Consortium FQHC Dental Directors. ODH launched a rich **communication** effort including social media and website resources. Our **geospatial data webmap** includes multiple resources and demographics, which we use frequently for planning, along with our Logic Model, Action Plan, Needs Assessment, and Evaluation Plan and Report.

**Looking Ahead** ODH has built substantial momentum for sustainable and scalable countywide interventions. As we strengthen partnerships with stakeholders, we will

- Expand partnerships with schools to implement, administer and sustain school dental programs in schools that have no or limited oral health program and high levels of students qualifying for Free and Reduced-Price Meals
- Continue expanding innovative approaches to support school districts in implementing KOHA, achieving low rates of waived forms, and uploading records to SCOHR
- Develop methods to sustain and expand care coordination services by identifying sources of funding, and partnering with local providers and organizations such as local dental societies
- Continue quarterly Community of Practice trainings for the oral health workforce in collaboration with UCSF, addressing vital clinical issues for local providers
- Expand Workgroup activities for priority populations and include underserved populations that have not been previously addressed
- Partnering with UCSF Dental Public Health Program for exploring the feasibility of implementing oral hygiene practices at early childcare centers in Alameda County
- Explore implementing a surveillance system to determine progress in reaching objectives

The primary potential barrier may be limitations due to COVID restrictions, which could delay our oral care work with schools and KOHA reporting, as schools are grappling with student vaccinations and outbreaks. The local response to COVID has stretched some of our partners' time available for collaborations and has decreased ODH staff capacity due to deployments to the COVID response team. We anticipate these challenges will lessen over the next 5 years.

Additional factors for Alameda County are the large number of residents included in our priority populations and eligible for Medi-Cal, and the diversity of languages spoken here.

Our team is strengthened by having our new Dental Health Administrator on board and we anticipate a strong and impactful LOHP program. We appreciate the support from the CDPH Office of Oral Health and look forward to continuing these exciting and meaningful initiatives.

### Grant Activities 2022 – 2027 REVISED 11/5/2021

Local Health Jurisdictions (LHJs) shall implement selected strategies outlined in the California Oral Health Plan and make progress toward achieving the California Oral Health Plan's goals and objectives. The activities may include convening, coordination, and collaboration to support planning, disease prevention, surveillance, education, and linkage to treatment programs. LHJs will maintain regular reporting to demonstrate progress towards implementing grant activities.

LHJs or designees must select Grant Activities and Reporting/Tracking Measures for objectives 1, 2, and 3 and will be responsible for selecting, at a minimum, one additional objective (from objectives 4-7) of their choice for the entire grant term. LHJs or designees can choose one or all objectives from 4-7.

A more comprehensive summary of expectations for grant objectives, activities, and reporting/tracking measures is included in a separate LOHP Work Plan in Appendix 2.

Based on the guidance above, please indicate which of the objectives and activities your local health jurisdiction will implement by placing an "X" in the appropriate check box below. Maintain records of reporting/tracking measures for all selected objectives and submit documentation annually, bi-annually, or as necessary, including all relevant documentation in progress report and data form submissions:

### 4. Dispute Resolution Process

- A. A Grantee grievance exists whenever there is a dispute arising from CDPH's action in the administration of an agreement. If there is a dispute or grievance between the Grantee and CDPH, the Grantee must seek resolution using the procedure outlined below.
  - 1) The Grantee should first informally discuss the problem with the CDPH Program Grant Manager. If the problem cannot be resolved informally, the Grantee shall direct its grievance together with any evidence, in writing, to the program Branch Chief. The grievance shall state the issues in dispute, the legal authority or other basis for the Grantee's position and the remedy sought. The Branch Chief shall render a decision within ten (10) working days after receipt of the written grievance from the Grantee. The Branch Chief shall respond in writing to the Grantee indicating the decision and reasons therefore. If the Grantee disagrees with the Branch Chief's decision, the Grantee may appeal to the second level.
  - 2) When appealing to the second level, the Grantee must prepare an appeal indicating the reasons for disagreement with Branch Chief's decision. The Grantee shall include with the appeal a copy of the Grantee's original statement of dispute along with any supporting evidence and a copy of the Branch Chief's decision. The appeal shall be addressed to the Deputy Director of the division in which the branch is organized within ten (10) working days from receipt of the Branch Chief's decision. The Deputy Director of the division in which the branch is organized or his/her designee shall meet with the Grantee to review the issues raised. A written decision signed by the Deputy Director of the division in which the branch is organized or his/her designee shall be directed to the Grantee within twenty (20) working days of receipt of the Grantee's second level appeal.
- B. If the Grantee wishes to appeal the decision of the Deputy Director of the division in which the branch is organized or his/her designee, the Grantee shall follow the procedures set forth in Division 25.1 (commencing with Section 38050) of the Health and Safety Code and the regulations adopted thereunder. (Title 1, Division 2, Chapter 2, Article 3 (commencing with Section 1140) of the California Code of Regulations).
- C. Disputes arising out of an audit, examination of an agreement or other action not covered by subdivision (a) of Section 20204, of Chapter 2.1, Title 22, of the California Code of Regulations, and for which no procedures for appeal are provided in statute, regulation or the Agreement, shall be handled in accordance with the procedures identified in Sections 51016 through 51047, Title 22, California Code of Regulations.

- D. Unless otherwise stipulated in writing by CDPH, all dispute, grievance and/or appeal correspondence shall be directed to the CDPH Grant Manager.
- E. There are organizational differences within CDPH's funding programs and the management levels identified in this dispute resolution provision may not apply in every contractual situation. When a grievance is received and organizational differences exist, the Grantee shall be notified in writing by the CDPH Grant Manager of the level, name, and/or title of the appropriate management official that is responsible for issuing a decision at a given level.
