

## COMMUNITY CLIMATE ACTION PLAN (CAP)

### CAP for Unincorporated Areas of Alameda County

Alameda County staff and consultants are developing a plan to reduce greenhouse gas emissions in your community. The plan may include methods to improve transit and reduce congestion, decrease energy and water usage, reduce waste and increase recycling. Join us at one of our meetings in December to hear about the plan and give us your feedback! See details below.

### CAP PUBLIC FORUMS: MARK YOUR CALENDARS!
