40% of world's jobs will be replaced by robots in next 15-25 years

An artificial intelligence expert and venture capitalist, Kai Fu Lee said that he believes 40% of the world's jobs will be replaced by robots capable of automating tasks.

Impacted jobs include both blue collar and white collar professions. “Many jobs that seem a little bit complex, chef, waiter, a lot of things will become automated.”

Elon Musk, [who has warned](#) about the power of artificial intelligence—worry that automation could disrupt entire communities and [disproportionately affect low-income workers](#).

<http://fortune.com/2019/01/10/automation-replace-jobs/>

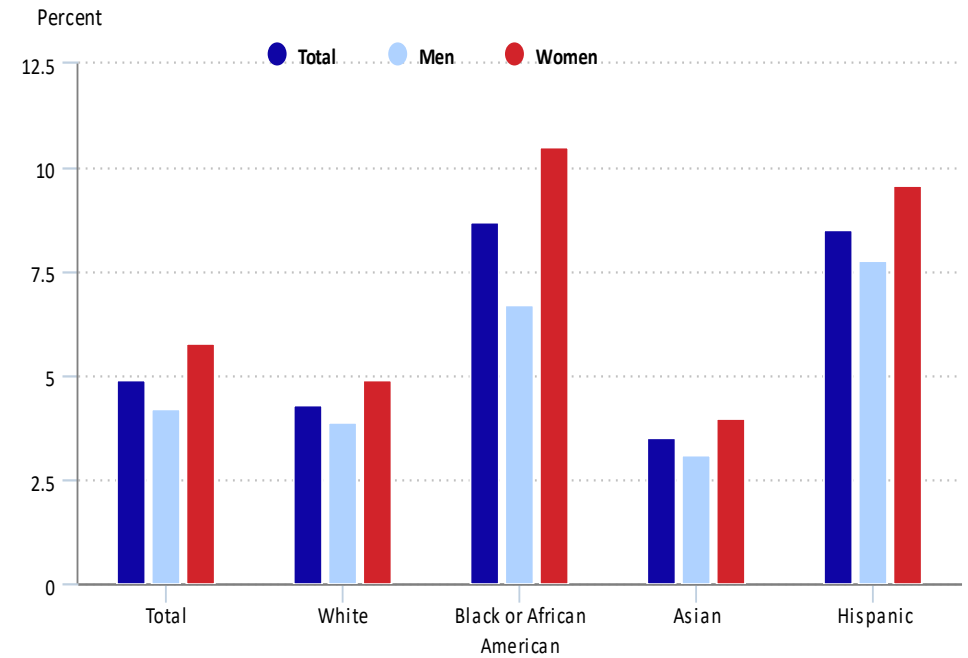

Who Will Be Impacted by Artificial Intelligence?

- Women
- African Americans
- Hispanics or Latinos
- Families with children under 18
- Service Occupations
