Development of test materials for the **California Community Colleges Chancellor's Office Common Assessment Initiative Assessment (CCCAssess)** has been underway for the past year. Bias review committees are being formed to review the new test items developed by California Community College faculty and in partnership with Link-Systems International. Having input from educators and the community regarding potential bias issues in CCCAssess test items is critically important to the practice of sound assessment development.

California educators, student, parents and community leaders representing a variety of cultural and educational perspectives are invited to review the new items and provide feedback on their appropriateness regarding potential bias and sensitivity issues.

The next review meetings will occur ONLINE on August 21-23. On Monday, August 21st, a virtual meeting will begin at 9:00 a.m. and end at 11:00 a.m. Participants will then review materials for approximately 6-8 hours between the conclusion of that meeting and noon on Wednesday, August 23rd. At 2:00 p.m. on Wednesday, August 23rd, a facilitated discussion session will take place online. Reviewers are required to participate in both the opening and closing sessions.
