

Vending Machine Services

Bid title "Inmate Commissary and Vending"

Contract start date: April 1, 2005

Environmental feature(s): Energy star vending machines; Installed with lighting removed

Bid Excerpt:

Energy Efficiency: All vending machines will be energy efficient. Refrigerated beverage vending machines will have earned the DOE ENERGY STAR by complying with the DOE Tier I energy performance criteria that went into effect April 1, 2004. In addition, beverage vending machines shall be capable of operating in each of the low power mode states as described in the Tier 1 criteria. These criteria are included in Exhibit L and may be found at www.energystar.gov.

The Contractor shall enable the refrigeration low-power state during times of inactivity and will deliver the machines without lamps installed. Lighting will not be used in the beverage machines in order to conserve energy and reduce County operating expenses. The ENERGY STAR label should be displayed on the front of the machine. Bidders must provide proof of ENERGY STAR rating.

Additional information on energy efficient vending machines or appliances may be found on the DOE website at www.energystar.gov.
