Alameda County is preparing for the 2020 Census. The Unincorporated CCC is holding public meetings where we welcome the participation of interested members of the public, community leaders, representatives from community-based organizations, schools, faith-based organizations and government agencies and departments.

In Workshop 2, we will be identifying methods and opportunities for outreach in the unincorporated areas, including discussing which individuals and organizations the County should partner with and potentially contract with to deliver that outreach in the lead up to Census 2020.
