Castro Valley Town Square

Analysis of Costs, Uses and Local Support

Prepared by Peter Rosen, Michael Kusiak, Scott San Filippo and Castro Valley Matters
March 11, 2014
Overview

At the February 4, 2014 Castro Valley Municipal Advisory Council (MAC) meeting, the MAC passed a motion requesting that the Castro Valley Town Square proponents gather more data about a proposed town square/plaza at the Daughtrey’s Building site. This document contains that research.

At the Successor Agency Oversight Board Meeting on February 26, the Board unanimously voted to support a revision to the Long Range Property Management Plan (LRPMP) so that a public use can be considered for the site.

The Castro Valley Town Square team spent the past few weeks canvassing local businesses, engaging residents about the project, talking to urban planners, getting feedback and advice from local and county officials and staff, and reaching out to those responsible for similar projects in Livermore, Lafayette, Windsor, Hayward, and Noe Valley. We’ve also talked to several parks officials as well as landscape architects and contractors.

We propose an alternative plan for the Daughtrey's Building site that 1) razes the building, 2) remediates the environmental concerns, and 3) creates a vibrant community gathering place.

We believe that MAC support is essential for the success of reclaiming one of Castro Valley's most visible and prominent spaces for public use.

We invite the MAC to join the community and support this alternative public use of the site and advise the Board of Supervisors and Oversight Board to do everything in their power to make a town square a reality for Castro Valley.

Findings Summary

- **Great Size.** The site footprint provides 15,000 square feet to construct a plaza. There is already a parking plan for the surrounding area in the back and to the side, and the surrounding buildings would give the plaza a natural enclosure that would make the plaza inviting and comfortable, according to urban planners we talked to.

- **Reasonable Cost.** A bottoms-up detailed estimate for a build-out of a basic town square was created in conjunction with landscape architects, local landscape contractors, and urban planners, as well as reviews of comparable town square sites throughout the Bay Area. Our estimated construction cost for a sample town square, based on the design elements discussed in this document, is less than $650,000.

- **Overwhelming Business Support for Change.** We canvassed nearly every one of the businesses surrounding the site, and we found that they overwhelmingly supported tearing down the current eyesore building. They preferred replacing the current building either with a town square that frees up critical parking spaces in the Downtown core or a new retail building. When asked specifically whether they would support a town square, 18 of 20 businesses canvassed near the Daughtrey site said yes.
• **Ideal Location.** We spoke to urban planners who have designed similar plazas in the Bay Area. They agree a plaza would transform the downtown area as it did in their towns, and “we could not ask for a better location” than the Daughtrey site.

• **Wide Resident Support.** We engaged with over 1,000 Castro Valley residents through one-on-one interaction at the Saturday Farmer’s Market, through social media, blogs, letters to the editor, and collecting petition signatures. Again, we found wide support for removing the building.

• **Safety.** In engaging our neighbors and fellow Castro Valley residents about the town square, folks were rightfully concerned about how the space would be used, particularly how it might attract transient populations. Urban planners we spoke to said that there would constantly be “eyes on the plaza” and the street access would make it easy to patrol and monitor, making it extremely unlikely to become a place for homeless or vandals to gather. Sociologist William H. Whyte extensively researched how people gather in public spaces and observed that “the best way to handle the problem of undesirables is to make a place attractive to everyone else.”

### What is a town square?

Town squares are open public spaces that have been incorporated into communities throughout history. Alternative names include plaza, civic center, and town green. Basic features of a town square include a large open space; a central location in the community and an identifying feature such as a fountain, gazebo, or public art.

Town squares become iconic gathering spaces in a community and “usually become the hub of the community, with numerous groups taking advantage of the open space to hold events… Visitors often enjoy visiting the town square as well, to get a taste for the community.”

[http://www.wisegeek.com/what-is-a-town-square.htm](http://www.wisegeek.com/what-is-a-town-square.htm)

Communities throughout the world incorporate town squares into their basic design as a fundamental planning tool. We are being given the opportunity to reimagine downtown Castro
Valley.

The Right Place, The Right Time - A Unique, Urgent Opportunity

Since 2000, Alameda County sought the purchase and redevelopment of the semi-abandoned Daughtrey’s building. Redevelopment efforts have always been focused on private uses, not public ones, unlike similar blighted properties purchased by redevelopment in the unincorporated areas of Alameda County.

Right after the purchase of the building for $2.7 million in 2011, California’s redevelopment agencies were dissolved, further frustrating efforts to pass the building on to a private party for redevelopment. The most recent appraisal put a value of $950,000 on the site.

The building has several problems. There are known asbestos issues in the structure. The basement is prone to flooding, needs pumps, and is where contaminated water collects.

The Community Development Agency has been negotiating an agreement that is “92% complete” with developer David Greensfelder. The agreement could not be executed until the fate of the site is resolved in the redevelopment dissolution process. Greensfelder does not plan to take down the building or remediate the water contamination issues in the basement.

“The cost of the water quality monitoring and testing is approximately $32,000 per year. When purchasing the property, the Agency received a $320,000 discount from the seller to account for the capitalized cost of the ongoing monitoring and testing. Future buyers of the property expect a similar discount off the building’s market valuation.”

(www.acgov.org/cda/successor/meetings/AqItem7-StaffReport-RealEstateUpdate.pdf)

It is, therefore, reasonable to expect a further reduction in the price of the site from $950,000 to $630,000 so that a private party can maintain the pump and filter system.

In essence, the public would be subsidizing the maintenance of a substandard basement with limited commercial appeal. What type of business would take the risk to rent the space? Does the type of business that would rent this basement really enhance the vitality of our downtown? And why are public funds being used to maintain space that detracts from the overall goal of enhancing our central business district?

Once the property is transferred to a private party, the opportunity to mitigate the environmental problems at the site is lost. A subsidy will help the developer maintain pumps and filters, but what happens in 10, 20, or 30 years? These are long-term costs that, over time, will serve as a drag to profitability at the site, and put the public at risk should the system not be maintained.

As the Daughtrey’s site is currently under government control, there is a compelling public policy choice to mitigate the environmental problems at the site and seize the opportunity to create a town square. Why not use the presumed $320,000 subsidy to leverage the additional state and
federal fund sources that could help cover the costs of remediation at the site?

On February 26, 2014, the Successor Agency Oversight Board unanimously voted to support a revision to the Long Range Property Management Plan (LRPMP) so that a public use can be considered for the site.

This means that Alameda County can continue working with the private developer who proposes a remodel without a permanent remediation of the site’s environmental concerns, while an alternative plan is developed that 1) razes the building, 2) remediates the environmental concerns, and 3) creates a vibrant community gathering place.

A Walkable Downtown: An Investment in Castro Valley’s Future

“If you plan cities for cars and traffic, you get cars and traffic. If you plan for people and places, you get people and places”
- Fred Kent, President, Project for Public Spaces

While known for its strong sense of community, Castro Valley lacks the amenities that make it feel like the small town that many believe and want it to be. As we look to our town’s future and seek to overcome the consequences of the lack of planning in our past, we have an opportunity now to transform the heart of community in a way that will give Castro Valley a stronger sense of place and an anchor for economic development in our downtown core.

We spoke with several commercial developers and urban planners about successful downtowns and they informed us about the changing demographics of suburban retail centers and what makes a successful retail location. A single large retail location is no longer the best way to draw customers to a downtown. Most thriving downtowns have a robust entertainment element, or something that draws the public to the location. The shared parking and downtown town square could be that draw.

One of the commercial agents made an astute observation about the effect that the parking would have on the entire community when he said, “The plaza and parking would be excellent for the community. Not only would this create value in the downtown area, but this would create value in the entire residential community. People will want to live here if we create a downtown space.” This same agent had commented that he is moving residential homeowners from Castro Valley to Pleasanton and San Ramon because they have great open spaces and hold community events. People crave a downtown identity and it has value.

Parking spaces are a tangible asset. This is why there are formulas that designate how many spaces are needed according to the size of the building. In Alameda County, this number depends upon the use assigned to it, but it is at least 4 spaces per 1,000 feet. If the building is removed, 60 parking spaces will no longer be assigned for use by the Daughtrey’s building and can be used for the downtown customers.
There is also a formula to assign the value of these parking spaces. The cost to create each space if it were in a parking garage is the typical benchmark, but these costs can vary widely. These fees can range from $2,000 to $67,000, but the median is more than $9,000 per space. Using these numbers, these 60 parking spaces have a value of $540,000 to downtown Castro Valley.

A town square is an investment in the future of our community and the anchor that the downtown desperately needs. The Winter Lights Festival and parade attracted crowds to the downtown area, and this led to a huge increase in sales for our downtown businesses. Holding regular events at the town square will further increase revenue to local businesses - more than another retail shop or non-local restaurant would at the Daughtrey location. That fact alone makes a strong business case for the town square. Add to it the large number of current retail vacancies, and the fact that the Daughtrey building has not been able to attract or keep a decent tenant in decades, and you have an extremely compelling reason to transform the site into a public town square.

A walkable downtown attracts people, makes them linger, and connects them in ways we could never plan for. Having a destination or a waypoint such as the town square makes Castro Valley more walkable and bikeable, and brings more people to local businesses with consistency and frequency.

Lois Fisher (http://www.fishertowndesign.com/about.html), a Santa Rosa-based urban planner who has worked to develop town squares and more walkable communities, said of the Daughtrey’s site: “You could not wish for a better place to build a town square - you have businesses all around it, it’s a main intersection, and there is already a parking plan.”
The “T”-intersection where Santa Maria and Castro Valley Boulevard meet, serves as a natural and historical center of our community. With a town square to the south, the section of Santa Maria from the Post Office to the Boulevard becomes a natural conduit for pedestrian traffic. In turn this could provide a boost of pedestrian traffic along this corridor and attract new retail and dining establishments.

The town square can be Castro Valley’s hub, where we gather and experience the small town charm of our community in real life. Imagine a grandstand to watch the yearly Rodeo and Homecoming parades, an expanded light festival and tree lighting during the holidays, a place where we gather to celebrate, and a place where we can gather to remember. The site is directly across from the main shopping village of Castro Valley and is in view of the outdoor seating of a breakfast cafe (Big Apple Bagels) and a Starbucks. People will park at the town square and stroll across to the Village to shop. The location is even within walking distance of BART. The plaza helps us take a giant step toward making downtown Castro Valley more walkable.

Creating a town square now leverages the $9 million invested in the Streetscape project, and provides a destination, resting place, and waypoint for pedestrian traffic. The timing could not be better, nor could the location.

Completing the Vision

Developing a town square specifically for Castro Valley is not a new idea. In fact, it is mentioned many times in planning documents and in visions for the community. Not only is the town square
proposal consistent with previously articulated goals for the development of Castro Valley, it also is a natural next step after investing millions of dollars on the Streetscape project.

The Castro Valley General Plan, the Castro Valley Downtown Specific Plan, and the recent EALI phase 2 charrette imagines more public spaces in central Castro Valley:

Chapter 2 of the Castro Valley General Plan includes the concept of a “Walkable Town Center,” and states:

“Create a central pedestrian-friendly shopping and restaurant area on a few blocks along Castro Valley Boulevard and key side streets, including Castro Village Shopping Center. Over time add and relocate buildings, sidewalks, and parking so that the area has a pedestrian environment. Add a plaza and features that create a public gathering place that can be identified as the heart of the community. If at all possible, create a place for a new post office as part of this area.”

The Castro Valley General plan also acknowledges the parking concerns of the downtown:

The Downtown Land Uses and Sub-areas; Action 4.7-4 Core Pedestrian Retail. Renovate and add new public and private facilities to create an integrated, attractive, pedestrian-oriented retail area which serves as the heart of Castro Valley.

Within this sub-area:
● Amend the CBD Specific Plan to rezone Subarea 7 to Core Pedestrian Retail (CBD-5);
● Create a Village Green;
● Add new retail space;
● Limit professional and real estate offices and title companies in ground floor spaces;
● Consolidate parking behind structures; and
● Build a new parking structure.

In Section 5.3, the Downtown and Commercial Revitalization the goals and objectives for the Central Business District are to create:
● a downtown where people want to go and spend time;
● an environment that will support economic vitality;
● a pedestrian friendly main street atmosphere.

Creating a town plaza also meets items 6, 7, and 8 of the Eden Area Livability Initiative Principles:
(6) Each community should have one or more focal points that combine commercial, civic, cultural and recreational uses.
(7) The community should contain an ample supply of specialized open space in the form of squares, greens and parks whose frequent use is encouraged through placement and design.
(8) Public spaces should be designed to encourage the attention and presence of people of all ages and interests.
(Note that, while Castro Valley has many large parks nearby, there are very few, if any, “specialized open spaces” like those described in the EALI Principles).

The ballot selection that received the highest number of votes in the November 2013 EALI Charette was: “Provide educational opportunities in the school system and surrounding community about agriculture, (farming, ranching, and equestrian) while seeking park and open space opportunities in the urban built out environment.” Among the specific projects listed is: “Develop large central plazas in the downtown areas as focal points for the community such as the properties at Daughtrey’s, Mission & Mattox, and the San Lorenzo Village.”

We can see that the proposed town square fits in well with stated plans for Castro Valley.

Uses of a Town Square
The town square will become a focal point for the community. The Daughtrey’s Building location has historically been the town center for Castro Valley, and this plaza reinforces that. It will become a meeting place and destination for residents and non-residents, a place from which they can start their errands for the day, or rest at the end of a day full of shopping. It’s a place to bring your lunch or coffee from local restaurants, or to look upon the beautiful plaza from one of the surrounding restaurants next to or across from it.

Lafayette has a space almost half the size of the site, and the city has held events such as “Taste of Lafayette,” the local farmer’s market, and summer concerts. They regularly have 8-10 booths and 250-300 people there at a given time. Our capacity and group numbers could be significantly higher due to the additional space of the paseo and parking lot.

Here are just some of the possible uses for the Castro Valley town square:

- Gathering place
- Focal point of town
- Local fairs
- Picnics
- Farmer’s Market
- Concerts
- Festivals
- Community events
- Crafts fairs
- Outdoor markets
- Local ranch and farm markets and showcases
- Local food and wine showcase
- Pilates, yoga classes
- Holiday events
- Outdoor movie nights
- Parade viewing
- Kids recreation
- “Suburban Trail” from BART/CV Library/CV Boulevard/Town Square
- High school/Youth events
- Local hospital health events

Possible Features
- Water fountain
- Stage
- Seating areas
- Signage
- Art, sculptures
- Landscape & lighting
- Small building for meetings
- Kids play area
- Landscaping - trees, plants, flowers
- Community bulletin board
- Lighting
- Pedestrian paths, flow
- Free WiFi

Cost Analysis

Broadly, there are three cost areas to discuss in order to determine the overall project costs for a town square: 1) site acquisition, 2), site demolition and remediation, 3) and site build-out.

The Redevelopment Agency paid more than $2.7 million for the Daughtrey’s site in 2011. The most recent estimate valued the property at $950,000.

The Successor Agency has conceded that the sale price to a private developer would need to be reduced in order to account for $320,000 in water pump and filtration costs. In addition, there are
several requirements that are being placed upon the developer that may reduce the sale price even further. It is conservative to expect a maximum sale price to the current proposed developer of no more than $630,000. If Senate Bill 1129 becomes law, then the cost for site acquisition may be further reduced to $1.

Therefore, estimated site acquisition for the Daughtrey’s site would be from $1 to $630,000, nowhere near the $2.7 million paid in 2011.

Based upon the two demolition estimates that were prepared for Alameda County redevelopment Agency, the demolition and toxic mitigation are expected to cost almost $600,000.

We performed an exhaustive review of possible costs for the town square, despite the short time frame. Based on our planned uses and initial designs, we estimated both “bottom-up” and “top-down” costs for the site.

- We created a bottom-up estimate in conjunction with landscape architects, landscape contractors, park experts, and urban planners.
- We talked to urban planners who had designed other Bay Area town plazas and parks, and also reached out to the Planning Commissions of Lafayette and Livermore to get the costs for their town plazas.
- We reached out to the head of the team of residents who have successfully lobbied for a town square to be built in Noe Valley in San Francisco (http://noevalleytownsquare.com/) to understand how they came up with the budget for the build-out of the their plaza.

Based on our outreach and analysis of other projects we estimate costs of building the town square at $616,780 (See Appendix for Specific Site Costs).

In Summary:
- Cost of “buying” the building: $1 - $630,000
- Demolition and toxic mitigation: $600,000
- Construction: $616,780

The total estimated costs for the total project are from $1,216,780 - $1,846,780.

These total costs are significantly more reasonable than the $4.3 million price tag that has often been quoted.

It should be noted, the current belief by the successor agency is that the properties purchased by the former redevelopment agency will need to be purchased again to “make the taxing entities whole”. The most recent estimates valued the Daughtrey’s property at $950,000, and the Wilbeem property at $180,000. If the existing development with David Greensfelder proceeds, the county will need to make up the difference between what he pays (assumed to be less than $600,000) and this total ($1,130,000); this means that the county will need to pay at least $530,000 additional to the taxing entities.
Based upon the two demolition estimates that were prepared for Alameda County redevelopment Agency, the demolition and toxic mitigation are expected to cost almost $600,000. If the property is designated for public use, the oversight board should not need to require that the taxing entities be compensated for them and this would save the need to purchase the Daughtrey’s site and the adjacent site on Wilbeam a second time. This will realize a net savings of at least $530,000, which should be applied to raze the Daughtrey’s building.

**Implementation & Funding Strategy**

We propose that the transfer of the Daughtrey’s Building site to Alameda County through the redevelopment dissolution process for the purposes of a public reuse, the remediation of the environmental issues at the site, and the development of a town square at the site.

We need multi-agency support and coordination to realize our new town square.

Initially we would need work with the Successor Agency and Alameda County to transfer the property. The revised LRPMP will permit this transfer.

If it becomes law, Senate Bill 1129, a bill that is being co-authored by our State Senate Majority Leader Ellen Corbett, may greatly reduce the cost of transferring the Daughtrey’s Building site for a public use:

From the Legislative Counsel’s Digest:

> “Existing law requires a city, county, or city and county that wishes to retain any properties or other assets for future redevelopment activities, funded from its own funds and under its own auspices, to reach a compensation agreement with the other taxing entities to provide payments to them in proportion to their shares of the base property tax for the value of the property retained, as specified. This bill would specify that these provisions do not apply to the disposition of properties pursuant to a long-range property management plan.”

http://www.leginfo.ca.gov/pub/13-14/bill/sen/sb_1101-1150/sb_1129_bill_20140219Introduced.htm

Notwithstanding this legislation, in light of the problems with the building site, the County may be able to take control of the building at a much lower cost than the estimated $950,000 current value. The Redevelopment Agency paid over $2.7 million in 2011. The County would not have to pay $2.7 million for the site again.

We have looked at the Noe Valley Town Square project as best practice in developing community and agency support for our town square. The San Francisco Recreation and Parks Department recently authorized a $500,000 application from the Land & Water Conservation Fund
(http://www.nps.gov/lwcf/), a matching grant program that “is intended to create and maintain a nationwide legacy of high quality recreation areas and facilities and to stimulate non-federal investments in the protection and maintenance of recreation resources across the United States.” The Land & Water Conservation Fund could be a substantial source of funds for the site build-out.

Additionally, the National Endowment for Humanities “Our Town” program (http://arts.gov/grants-organizations/our-town) recently funded a grant to assist in community engagement in the development of public space for a town square in Arlington, Virginia - we would look to this as a potential funding source.

As the Hayward Area Recreation and Parks District (HARD) specializes in creating and maintaining public spaces, we believe it would serve as the most suitable public agency to build out the site. We will be seeking HARD's advice and support as this project develops.

We would ask Alameda County to work with HARD to determine the best strategy for obtaining previously mentioned environmental remediation funds to determine which agency would manage the demolition and remediation of the site. The Environmental Protection Agency (EPA) provides grant and loan programs that could help in covering the cost of the site clean-up (http://www.epa.gov/region9/brownfields/grants.html).

Castro Valley Matters is committed to serve as an advocate to solicit donations from individuals and businesses for the build-out, similar to the strategy pursued in Noe Valley, where over 80% of pledges totaling $517,000 resulted in donations for that project. We would also seek in-kind donations for professional services to support the development of the project, such as architectural drawings and grant development.

Additionally, we would encourage the public agency that takes the lead on this project to create a citizen’s advisory committee and hold public workshops to develop the design details for the square.

**Conclusion**

“The suburbs that are doing the best are the ones that have public gathering places, that have a heart and soul.”
– Ed McMahon, Urban Land Institute, Sunset Magazine February 2014

The citizens of Castro Valley invite the MAC’s conceptual support for the creation of a town square at the former Daughtrey's site. We further request the MAC’s active involvement in identifying public agencies and sources of funding that would help in the creation of a town square.

As a place for public events, fairs, family outings, and chance meetings, a town square will spur economic and cultural growth more than a rehabilitated Daughtrey's building would. Leveraging the initial steps in place-making from the Castro Valley Boulevard streetscape project, a town
square will provide a renewed sense of pride in our town and be a step toward attracting new businesses and restaurants.

The opportunity to redevelop a critical piece of real estate into a vibrant public space in a crucial commercial and social juncture of Castro Valley will likely not happen again. We urge the MAC and Alameda County to take advantage of this opportunity and join the citizens and businesses of Castro Valley to get this town square created.

### Estimate of Current Property Value

| Estimated Current Value | $180,000 |
| Date of Estimated Current Value | May 2013 |
| Value Basis | Local comparables |
| Proposed Sale Value | N/A |
| Proposed Sale Date | N/A |

### Agency Revenue

| Is Agency receiving lease or rental income for the private use of the property? | No |
| If Yes, indicate amount of Agency's Annual rent/lease income? | N/A |
| If yes, describe contractual requirements for use of income. | N/A |
## Environmental History of Contamination / Remediation

| Have any environmental tests or assessments been preformed on the property? | LCM/ACM (Lead Containing Material / Asbestos Containing Material) analysis was performed in August, 2009; lead based paint found in exterior; abated. Asbestos found in counter top sheeting; abated. Building demolished in 2009. |

## Previous Development Proposals

| Describe any previously proposed or solicited development plans for the property, including any short term and or long term lease/rental arrangements. | Shared Parking Lot  
A Memorandum of Understanding (MOU) has been drafted and reviewed by all private parties and its execution is imminent. Architectural plans have been prepared for submittal to the Planning Dept. Environmental pre-development (CEQA) analysis is being prepared now for submission to the Planning Dept. |

## Reuse Assessment and Recommended Action

| Describe potential Community Benefit | Consolidates four separate private parking areas into one destination lot in downtown Castro Valley’s central business district. |
| Describe the property's potential for transit oriented development | Low. Property is to be used in conjunction with property #6 below, and three other private commercial parcels, to construct a Shared Parking Lot facility, all located three blocks from the Castro Valley BART station and on AC Transit’s #32 bus line. |
| Describe the reuse potential of the property in terms of advancing the Successor's Agency's planning objectives | The project is identified as an economic development goal in the Five Year Implementation Plan for FY 9/10 – 13/14, approved June 30, 2009.  
The Redevelopment Plan for Eden Area Redevelopment Project, adopted 7/11/00, Section II.A. “Development in Project Area”, pg 6, says, “encourage the better utilization of Real Property, and a more efficient and effective circulation system….”  
Section III.F.1., “Redevelopment Implementation, Castro Valley Sub-Area”, pg 24 says, “Encourage the assembly of oddly-shaped parcels in business districts to encourage standard development.” Pg 25 says, “Assist individual property owners in resolving cross lot drainage problems.” |

## AB 1484 / Recommended action:

| Approved Redevelopment Project / Government Use. |

### Agency Revenue

| **Is Agency receiving lease or rental income for the private use of the property?** | Yes |
| **If Yes, indicate amount of Agency’s Annual rent/lease income?** | $30,000 via temporary lease, August - October, 2011.  
                                | $35,000 via temporary lease, August – October, 2012.  
                                | $35,000 via temporary lease, August – October, 2013.  
                                | Planned 2013 Temporary Lease to be heard by the Oversight Board July, 2013. |
| **If yes, describe contractual requirements for use of income.** | None |
### Environmental History of Contamination / Remediation

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Have any environmental tests or assessments been performed on the property?</td>
<td>In August, 2010 asbestos was found in the roof; roof was abated and re-roofed. Other parts of the building were not tested but due to the age, it is assumed that asbestos will be found elsewhere. Phase I Analysis was completed in September, 2010 for hydrocarbons, soil contamination, water contamination and LCM/ACM (Lead Containing Material / Asbestos Containing Material). Lead based paint has not been tested for, but based on the age of the building expected to be found on minimum on exterior paint. Abatement or encapsulation will be necessary. Further testing needed. Asbestos containing materials exist in building although some abatement has been done since 1996. Abatement or encapsulation will be necessary. Further testing needed. Hydraulic piston freight elevator has the potential to have leaked into building and surrounding soil, or may in the future. Property includes a foundation dewatering system which pumps water directly into the storm drain system. See Phase II below. Phase II Analysis (Limited investigation report) was completed October 2010; soil gas sampling; soil and grab ground water sampling; sump pump water sampling; testing determined the ground table water to be contaminated, likely from historical up-gradient dry cleaning solvents; permit from State Regional Water Quality Control Board (RWQCB) obtained; pretreatment system for sump pump water installed in 2011. Water testing within acceptable range, continues to be monitored on a quarterly basis and reported to RWQCB.</td>

### Previous Development Proposals

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Describe any previously proposed or solicited development plans for the property, including any short term and or long term lease/rental arrangements.</td>
<td>Property has been actively marketed since acquisition, both via an RFP process and wide informal solicitations. A leading candidate was identified in June, 2012. A Disposition and Development Agreement is currently being drafted and negotiated, in anticipation of Long Range Property Management Plan Approval. This site is intended to be developed in conjunction with the Shared Parking Lot property as described under 20853 Wilbeam Avenue (map reference #5).</td>
</tr>
<tr>
<td>Reuse Assessment and Recommended Action</td>
<td></td>
</tr>
<tr>
<td>----------------------------------------</td>
<td>--</td>
</tr>
<tr>
<td><strong>Describe potential Community Benefit</strong></td>
<td>Conveying to a developer or commercial user will realize a key redevelopment objective of infill retail development at a long dormant property in a central business district location.</td>
</tr>
<tr>
<td><strong>Describe the property's potential for transit oriented development</strong></td>
<td>Low. Property is to be used in conjunction with the 20853 Wilbeam Avenue property, and three other private commercial parcels, to construct a Shared Parking Lot facility, all located three blocks from the Castro Valley BART station and on AC Transit’s #32 bus line.</td>
</tr>
<tr>
<td><strong>Describe the reuse potential of the property in terms of advancing the Successor's Agency's planning objectives</strong></td>
<td>The project is identified as an economic development goal in the Five Year Implementation Plan for FY 9/10 – 13/14, approved June 30, 2009. The Redevelopment Plan for Eden Area Redevelopment Project, adopted 7/11/00, Section II.A. “Development in Project Area”, pg 6, says, “Encourage development according to the General Plan”, and “Encourage investment in the Project Area by the private sector”, and “Encourage and expand shopping facilities in the Project Area by encouraging the development of new commercial uses and the rehabilitation of existing commercial uses …” Pg 7 says, “Enhance and expand shopping facilities in the Project Area by encouraging the development of new commercial uses… Section III.F.1., “Redevelopment Implementation, Castro Valley Sub-Area”, pg 24 says, “Develop a downtown Castro Valley revitalization strategy”, and “Implement a business recruitment and retention program.”</td>
</tr>
<tr>
<td><strong>AB 1484 / Recommended action:</strong></td>
<td>Approved Redevelopment Plan Project; future use is sale to and development by private enterprise.</td>
</tr>
</tbody>
</table>
A. ASSET DISPOSITION PLAN

At the time of Dissolution, the Redevelopment Agency had 12 parcels that were acquired for planned redevelopment projects. During 2011, the Redevelopment Agency transferred 11 of the 12 parcels to the County. Pursuant to the Dissolution Act, and confirmed by a recent notice from the California State Controller’s Office, all assets transferred to the County must be returned to the Successor Agency for disposition. A list of these properties is attached as Exhibit B. The language from the Dissolution Act calls for Successor Agencies to dispose of these assets and that, “Disposal shall be done expeditiously and in a manner aimed at maximizing value.”

There are also provisions in the legislation allowing that if a jurisdiction, “…wishes to retain any properties or other assets for future redevelopment activities, funded from its own funds,…..it must reach a compensation agreement with the other taxing entities to provide payments to them in proportion to their shares of the base property tax,…for the value of the property retained.”

Each of the former RDA’s properties must be evaluated for disposition or retention under a number of criteria such as market value, County budget constraints (for acquisition and any project implementation), timing, feasibility, legality, land use and other variables. Staff will begin preparation of an Asset Disposition Plan for former RDA properties and return to a future Oversight Board meeting with this information.

B. 3295 CASTRO VALLEY BLVD. (former Daughtrey’s Building)

1. Environmental Remediation, Demolition, Access

   Environmental Background
   On April 8, 2011 the Agency acquired the subject property with the known pre-existing condition of contaminated and treated water being discharged into the local storm drain. The enabling discharge permit from the San Francisco Regional Water Quality Control Board (RWQCB) mandates quarterly sampling, testing, analyzing and reporting of the influent and effluent water quality. Additionally, the remediation system’s carbon filters require periodic change out.

   Staff has kept the RWQCB staff abreast of our activity to re-start water quality monitoring as a Successor Agency. An RFP was issued, responses were received, and a
new contract will soon be completed to commence testing and reporting, likely in May, 2012.

The cost of the water quality monitoring and testing is approximately $32,000 per year. When purchasing the property, the Agency received a $320,000 discount from the seller to account for the capitalized cost of the ongoing monitoring and testing. Future buyers of the property expect a similar discount off the building’s market valuation.

**Demolition Funding Consideration**

In conversations with environmental consultants and the RWQCB staff, if the contaminated water were not pumped into the storm drain, any requirement for ongoing quarterly sampling, testing, analyzing and reporting of the water could be terminated with filing of a “Notice of Termination” (NOT) with RWQCB. Due to the plumbing connection between the foundation’s dewatering well and the bottom of the building’s elevator shaft, if/when the pump shuts off (e.g., power outages), water backs up into the elevator shaft, overflows, and floods the basement. Therefore, the pump must remain running and discharging or the building’s basement floods.

One way to eliminate RWQCB reporting is to eliminate the basement by demolishing the building, backfilling the hole, and compacting the soil to commercial development standards. The water table would return to its natural height and conditions under the building pad. A preliminary cost estimate for this work is $365,000. Therefore, the cost to continue basement dewatering and water quality monitoring, versus building demolition and removal of the reporting requirement, is nearly equivalent over time.

County staff has received several offers to purchase the property. Most of these, though not all, resist acquiring the burden of ongoing monitoring and reporting as well as the liability of unknown future RWQCB regulations. They call for the building’s demolition and termination of the reporting requirement to RWQCB as a condition of sale. One viable purchase offer is willing to accept the responsibility and liability of the water condition for a price discount of $275,000 (less than the $320,000 mentioned above).

County staff is finalizing all of the sales offers. In the event that building demolition, basement backfill and soil compaction become a requirement of sale to the selected Buyer, County staff will return to this Board requesting approximately $365,000 for demolition and related site preparation costs.
Access
Since the inception of the project to acquire and renovate the subject building, a parallel plan for a Shared Parking program amongst 3 of the private parcel owners east of the site has been developed. Parking lot design plans have been completed, a management agreement drafted and vetted by all parties, and insurance and maintenance issues have been resolved. Additionally, the former Redevelopment Agency purchased 20853 Wilbeam, demolished the existing structure and intended to contribute this property as the Shared Parking lot’s eastern entrance off Wilbeam.

Prospective tenants for the subject site place significant importance on traffic access. Some purchase offers by prospective developers require the Wilbeam parcel to be included as a condition of sale, and some do not. Since funding for the Shared Parking program was eliminated with Redevelopment’s dissolution, this also calls the question regarding the Successor Agency’s sale or retention of the Wilbeam parcel. This variable becomes critical to determine prior to concluding sales negotiations.

Staff estimates the re-purchase price for this parcel could be up to $200,000; the cost of physical improvements of the Shared Parking program is estimated at $1.8 million, as currently designed. Staff will continue to refine the various purchase offers to determine if the conditions of sale include retention of the Wilbeam parcel and site improvements.

2. Interim Leasing of Successor Agency Property
For several prior years, the subject building has been leased to Spirit Halloween (Spirit) for 3+ months (Aug-early Nov). Spirit is again offering to lease the space for the same period in 2012, for a total lease amount of $32,000.

Given County bidding and contracting procedures, as well as the Buyer selection timetable (see next section), the soonest the building would be demolished, is likely October 1, 2012. The cost to perform the RWQCB monitoring schedule until that time, including change out of the carbon filters and submittal of a Notice of Termination to RWQCB is estimated at $17,133.

Leasing the building to Spirit and delaying the building demolition until late November when the lease term expires, would cost an additional $4,410 in RWQCB reporting expenses, for a total of $21,543. However, the lease income of $32,000 would offset these costs and produce a net gain of roughly $10,457 over the period, barring other expenses.

County staff seeks authorization to initiate a short term, temporary lease with Spirit Halloween for the period August 1-November 16, 2012.
3. **Property Disposition**  
As described above, County staff is finalizing and analyzing the feasibility of the sales offers received to date, and is researching the legal parameters of property disposition processes as a Successor Agency. Staff will return to the June 2nd Oversight Board meeting for discussion and decision on a sale of 3295 Castro Valley Blvd.

C. **INTERIM LEASING of 278 HAMPTON RD., CHERRYLAND**  
The Hayward Area Recreation District (HARD) is interested in leasing 278 Hampton Road for an interim use as a dog park. County staff will continue to research the capital costs, revenue available, term, and other legal and land use issues related to this proposal and return to a future Oversight Board meeting with a staff recommendation.

## Bay Area Parking Standard Survey: Citywide

March 3, 2012

### Alameda County
- **Alameda Urban Area**
  - Retail Parking Standards: Minimum 5, Maximum 6 per 1,000 sq. ft., Special Rules for Determining Required Parking: Per CUP.
- **Dublin Outer Suburb**
  - Retail Parking Standards: Minimum 3.33, Maximum 5 per 1,000 sq. ft., Special Rules for Determining Required Parking: Based on primary use type.

### Contra Costa County
- **Antioch Outer Suburb**
  - Retail Parking Standards: Minimum 5, Maximum 6 per 1,000 sq. ft., Special Rules for Determining Required Parking: Sum of requirements of various uses.
- **El Cerrito Urban Area**
  - Retail Parking Standards: Minimum 3.33, Maximum 5 per 1,000 sq. ft., Special Rules for Determining Required Parking: 1.5-3.5 square feet of gross floor area or above or below 1,000 sq. ft.
- **Richmond Urban Area**
  - Retail Parking Standards: Minimum 3, Maximum 7 per 1,000 sq. ft., Special Rules for Determining Required Parking: Determined by type of use.
- **Walnut Creek Urban Area**
  - Retail Parking Standards: Minimum 4, Maximum 4 per 1,000 sq. ft., Special Rules for Determining Required Parking: Rentable Floor Area (RFA) or RFA, plus one space per company vehicle and one space for every 1,000 sq. ft. of outdoor display.

### Marin County
- **Novato Outer Suburb**
  - Retail Parking Standards: Minimum 3.33, Maximum 5 per 1,000 sq. ft., Special Rules for Determining Required Parking: Determined by type of use.
- **San Rafael Urban Area**
  - Retail Parking Standards: Minimum 2.5, Maximum 4 per 1,000 sq. ft., Special Rules for Determining Required Parking: Based on parking study provided by applicant.

### Napa County
- **Napa City Urban Area**
  - Retail Parking Standards: Minimum 4, Maximum 4 per 1,000 sq. ft., Special Rules for Determining Required Parking: Yes, see notes.

Downtown Parking In-Lieu Fee Draft Report, August 2012, Nelson\Nygaard Consulting Associates Inc. for the City of Santa Monica, pages 105-106.
In-lieu Fees in Select California Cities

Figure 13 below provides an overview of in-lieu fee programs in selected California cities. It shows the fee amount, the year of initiation, how fees are adjusted, and what the revenue is expended on. As noted above in the introduction most fee programs are on a one-time, per-space basis, which differs from Santa Monica’s program. In addition, most fees are adjusted annually based on the CPI.

</table>
We hereby submit specifications and estimates as follows:

**SCOPE OF WORK:** Work is limited to items listed below.

### Building 1:
Work includes complete demolition of 15,000 s/f concrete building with wood, concrete & steel roof & interior walls. Includes second story 9,000 s/f of wood and sheetrock for demo and removal. Includes demolition of slab on grade and footings 18” below finish grade. Includes 2,500 s/f of exterior concrete flatwork removal around building and 15,000 s/f asphalt parking lot. All concrete and asphalt to be crushed to AB and used for infill of basement, all wood and steel to be off hauled. Expected time to complete 45 days

| Lump Sum Price | $238,900.00 |

### Basement 1:
Work includes infill and compaction to 95% of 5,600 c/y basement, floor, columns and walls to be left in place after prepping to prevent water ponding. All concrete and asphalt from building 1 and parking lot to be crushed to AB and used for infill of basement. Expected time to complete 30 days

| Lump Sum Price | $164,300.00 |

### SWPPP
Work includes oversight and development of storm-water pollution prevention plan by QSP, weekly inspection for compliance and State Water Quality Control Board fillings.

| Lump Sum Price | $24,900.00 |

### SWPPP Contractor Implementation
Work includes weekly implementation of BMP’s as directed by the QSP and site conditions for the duration of the demolition project. Expected time to complete 60-75 days

| Lump Sum Price | $68,100.00 |
EXCLUSIONS: Layout, overtime hours, traffic control, sidewalk closing, street closing, patching at limits of demolition, protective cover and barricades, standby/contractor delays, utilities locating, cut and cap or removal of utilities, damage to utilities in or around area of work and their impact, access to work, underground utility removal, salvage of items for owner, shoring of anything to remain, permits, removal of base rock under structure slabs, final grading, demo and backfill and compaction of basement walls, columns and footings. Any asbestos, lead based paint or mold abatement or removal, any contaminated ground water off- haul, testing or reporting of groundwater to any state or local agencies, engineering or civil work, staking or compaction tests.

CONDITIONS: Owner to provide parking and stage area for any equipment necessary for completion of said work. Pricing valid for 60 days. Price based on (1) move-ins. A minimum of 15 day notice is required for scheduling. Owner is responsible for access to smart account with SWQCB. Owner and contractor agree that no demolition plan is available and that any unforeseen conditions beyond the control of owner or contractor would constitute a change order. Ground water clarification system will be in good working order when contractor starts work. This is a prevailing wage rate project.

NOTES: Unit pricing is based on an all-inclusive package unless mutually agreed upon. No Retention will be withheld. Monthly progress invoicing to be pay within 30 days. If payment is not received within 30 days, a 1.5% interest rate will be assessed. No work shall commence before this proposal is signed and returned and/or a mutually agreed upon subcontract is issued. Expected time to complete 60-75 days.

We propose hereby to furnish materials and labor – complete in accordance with the above referenced plans, for the sum of:

Four Hundred Ninety Six Thousand Two Hundred Dollars ($ 496,200.00 )

Balance to be paid upon completion of job. A finance charge of 1.5% or 18% per annum will be charged on past due accounts and reasonable attorney fees to be allowed in event of suit to collect. All materials are guaranteed to be as specified. All work to be completed in a workmanlike manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Owner to carry fire, tornado and other necessary insurance. Our workers are fully covered by Workmen’s Compensation Insurance.

Acceptance of Proposal – The above mentioned prices, specifications and conditions are satisfactory and are hereby accepted. You are Authorized to do the work as specified. Payment to be made as outlined above. __________________________________________________________________________________________________________________________________________________________

Bid To: Jamie / Bill

PROPOSAL:
Remove building, basement walls to 1’ below existing grade, and punch holes in
basement floor every 5’ on center, price includes engineering for basement backfill

$297,030.00

Backfill basement to existing grade at 12 feet deep, 90% compaction

$287,000.00

Note: Bid is all or none.

*Owner to supply:  Temporary fencing
Compaction testing

-If retention must be withheld add 1%.
-Retention must be paid within 30 days of completion on DD&CL work.
-Price based on 1 mobilization: Additional mobilizations billed at $5,000.00
-Price based on plan sheets; site visit Dated: 5/8/12.
-Includes Air Quality 10 day notification on structure demolition.

EXCLUSIONS
- DD&Cl may over excavate & is not responsible for backfill and compaction
- Owner Controlled Insurance Program (OCIP)
- Potholing underground lines
- Insurance over 1 Million
- Cost of Bond
- Waiver of subrogation
- Survey to insure no nesting migratory birds in accordance with the MTBA (Migratory Bird Treaty Act)
- Toxic, contaminated, hazardous material removal
- Temporary fencing, barricades, warning signs
- Protective fencing, protective covers of any kind

Senate Bill 1129, Introduced by Senator Darrell Steinberg, Senator Ellen Corbett (co-author).
An act to amend Sections 34177, 34177.5, 34180, 34191.3, 34191.4, and 34191.5 of the Health and Safety Code, relating to redevelopment.

LEGISLATIVE COUNSEL’S DIGEST

SB 1129, as introduced, Steinberg. Redevelopment: successor agencies to redevelopment agencies.

(1) Existing law dissolved redevelopment agencies and community development agencies as of February 1, 2012, and provides for the designation of successor agencies to wind down the affairs of the dissolved redevelopment agencies and to, among other things, make payments due for enforceable obligations and to perform obligations required pursuant to any enforceable obligation. Existing law requires the Department of Finance to issue a finding of completion to a successor agency upon confirmation by the county auditor-controller that specified payments have been fully made by the successor agency, as specified. Existing law prohibits a successor agency from entering into contracts with, incur obligations, or make commitments to, any entity, as specified, or to amend or modify existing agreements, obligations, or commitments with any entity, for any purpose.

This bill would authorize a successor agency, if the successor agency has received a finding of completion, to enter into, or amend existing, contracts and agreements, or otherwise administer projects in connection with enforceable obligations, if the contract, agreement, or project will not commit new property tax funds or otherwise adversely affect the flow of specified tax revenues or payments to the taxing agencies, as specified.

(2) Existing law authorizes a successor agency to oversee the development of properties until the contracted work has been completed or the contractual obligation of the former redevelopment agency can be transferred to other parties, and requires bond proceeds to be used for the purposes for which bonds were sold, except as specified.

This bill would authorize a successor agency to utilize the proceeds of bonds issued during the 2011 calendar year, upon the approval of the oversight board, if the oversight board, in consultation with the relevant metropolitan planning organization determines that the use of the bond proceeds is consistent with the sustainable communities strategy adopted by the metropolitan planning organization.

(3) Existing law authorizes a successor agency to petition the Department of Finance to provide written confirmation that its determination relating to an enforceable obligation that provides for an irrevocable commitment of property tax revenue, as specified, is final and conclusive, and reflects the department’s approval of subsequent payments made pursuant to the enforceable obligation.

This bill would require the removal of an enforceable obligation from a recognized obligation payment schedule that has received a finding of completion from the department to be submitted to the oversight board for review and approval.

(4) Existing law requires a city, county, or city and county that wishes to retain any properties or other assets for future redevelopment activities, funded from its own funds and under its own auspices, to reach a compensation agreement with the other taxing entities to provide payments to them in proportion to their shares of the base property tax for the value of the property retained, as specified.

This bill would specify that these provisions do not apply to the disposition of...
properties pursuant to a long-range property management plan.

(5) Existing law requires the disposition of assets and properties of the former redevelopment agency as directed by the oversight board, as specified, and suspends these requirements until the Department of Finance has approved a long-range property management plan, as specified. Upon approval of a long-range property management plan, the plan governs and supersedes, all other provisions relating to the disposition and use of the real property assets of the former redevelopment agency. Existing law requires the property of a former redevelopment agency to be disposed of according to law if the department has not approved a long-range property management plan by January 1, 2015.

This bill would prohibit the department from requiring compensation agreements as part of the approval of a long-range property management plan and would specify the criteria the department may consider in approving a long-range property management plan. The bill would additionally delete the requirement that the department approve a plan by January 1, 2015, and instead require the department to approve long-range property management plans as expeditiously as possible.

The people of the State of California do enact as follows:

SECTION 1. Section 34177 of the Health and Safety Code is amended to read:

P3

1 Section 34177.
2 Successor agencies are required to do all of the following:
3 (a) Continue to make payments due for enforceable obligations.
4 (1) On and after February 1, 2012, and until a Recognized Obligation Payment Schedule becomes operative, only payments required pursuant to an enforceable obligations payment schedule shall be made. The initial enforceable obligation payment schedule shall be the last schedule adopted by the redevelopment agency under Section 34169. However, payments associated with obligations excluded from the definition of enforceable obligations by paragraph (2) of subdivision (d) of Section 34171 shall be excluded from the enforceable obligations payment schedule and be removed from the last schedule adopted by the redevelopment agency under Section 34169 prior to the successor agency adopting it as its enforceable obligations payment schedule pursuant to this subdivision. The enforceable obligation payment schedule may be amended by the successor agency at any public meeting and shall be subject to the approval of the oversight board as soon as the board has sufficient members to form a quorum. In recognition of the fact that the timing of the California Supreme Court’s ruling in the case California Redevelopment Association v. Matosantos (2011) 53 Cal.4th 231 delayed the preparation by successor agencies and the approval by oversight boards of the January 1, 2012, through June 30, 2012, Recognized Obligation Payment Schedule, a successor agency may amend the Enforceable Obligation Payment Schedule to authorize the continued payment of enforceable obligations until the time that the January 1, 2012, through June 30, 2012, Recognized Obligation Payment Schedule has been approved by the oversight board and by the Department of Finance.
5 (2) The Department of Finance and the Controller shall each
have the authority to require any documents associated with the
enforceable obligations to be provided to them in a manner of their
choosing. Any taxing entity, the department, and the Controller
shall each have standing to file a judicial action to prevent a
violation under this part and to obtain injunctive or other
appropriate relief.

(3) Commencing on the date the Recognized Obligation Payment
Schedule is valid pursuant to subdivision (l), only those payments
listed in the Recognized Obligation Payment Schedule may be
made by the successor agency from the funds specified in the
Recognized Obligation Payment Schedule. In addition, after it
becomes valid, the Recognized Obligation Payment Schedule shall
supersede the Statement of Indebtedness, which shall no longer
be prepared nor have any effect under the Community
Redevelopment Law (Part 1 (commencing with Section 33000)).

(4) Nothing in the act adding this part is to be construed as
preventing a successor agency, with the prior approval of the
oversight board, as described in Section 34179, from making
payments for enforceable obligations from sources other than those
listed in the Recognized Obligation Payment Schedule.

(5) From February 1, 2012, to July 1, 2012, a successor agency
shall have no authority and is hereby prohibited from accelerating
payment or making any lump-sum payments that are intended to
prepay loans unless such accelerated repayments were required
prior to the effective date of this part.

(b) Maintain reserves in the amount required by indentures,
trust indentures, or similar documents governing the issuance of
outstanding redevelopment agency bonds.

(c) Perform obligations required pursuant to any enforceable
obligation.

(d) Remit unencumbered balances of redevelopment agency
funds to the county auditor-controller for distribution to the taxing
entities, including, but not limited to, the unencumbered balance
of the Low and Moderate Income Housing Fund of a former
redevelopment agency. In making the distribution, the county
auditor-controller shall utilize the same methodology for allocation
and distribution of property tax revenues provided in Section
34188.

(e) Dispose of assets and properties of the former redevelopment
agency as directed by the oversight board; provided, however, that
the oversight board may instead direct the successor agency to
transfer ownership of certain assets pursuant to subdivision (a) of
Section 34181. The disposal is to be done expeditiously and in a
manner aimed at maximizing value. Proceeds from asset sales and
related funds that are no longer needed for approved development
projects or to otherwise wind down the affairs of the agency, each
as determined by the oversight board, shall be transferred to the
county auditor-controller for distribution as property tax proceeds
under Section 34188. The requirements of this subdivision shall
not apply to a successor agency that has been issued a finding of
completion by the Department of Finance pursuant to Section
34179.7.

(f) Enforce all former redevelopment agency rights for the
benefit of the taxing entities, including, but not limited to,
continuing to collect loans, rents, and other revenues that were due
to the redevelopment agency.
(g) Effectuate transfer of housing functions and assets to the appropriate entity designated pursuant to Section 34176.

(h) Expeditiously wind down the affairs of the redevelopment agency pursuant to the provisions of this part and in accordance with the direction of the oversight board.

(i) (1) Continue to oversee development of properties until the contracted work has been completed or the contractual obligations of the former redevelopment agency can be transferred to other parties. Bond proceeds shall be used for the purposes for which bonds were sold unless the purposes can no longer be achieved, in which case, the proceeds may be used to defease the bonds.

(2) Utilize, in accordance with paragraph (1) the proceeds of bonds issued during the year 2011, upon approval of the oversight board, if the oversight board, in consultation with the appropriate metropolitan planning organization, determines that the use of the bond proceeds is consistent with the sustainable communities strategy adopted by the metropolitan planning organization.

(j) Prepare a proposed administrative budget and submit it to the oversight board for its approval. The proposed administrative budget shall include all of the following:

(1) Estimated amounts for successor agency administrative costs for the upcoming six-month fiscal period.

(2) Proposed sources of payment for the costs identified in paragraph (1).

(3) Proposals for arrangements for administrative and operations services provided by a city, county, city and county, or other entity.

(k) Provide administrative cost estimates, from its approved administrative budget that are to be paid from property tax revenues deposited in the Redevelopment Property Tax Trust Fund, to the county auditor-controller for each six-month fiscal period.

(l) (1) Before each six-month fiscal period, prepare a Recognized Obligation Payment Schedule in accordance with the requirements of this paragraph. For each recognized obligation, the Recognized Obligation Payment Schedule shall identify one or more of the following sources of payment:

(A) Low and Moderate Income Housing Fund.

(B) Bond proceeds.

(C) Reserve balances.

(D) Administrative cost allowance.

(E) The Redevelopment Property Tax Trust Fund, but only to the extent no other funding source is available or when payment from property tax revenues is required by an enforceable obligation or by this part.

(F) Other revenue sources, including rents, concessions, asset sale proceeds, interest earnings, and any other revenues derived from the former redevelopment agency, as approved by the oversight board in accordance with this part.

(2) A Recognized Obligation Payment Schedule shall not be deemed valid unless all of the following conditions have been met:

(A) A Recognized Obligation Payment Schedule is prepared by the successor agency for the enforceable obligations of the former redevelopment agency. The initial schedule shall project the dates and amounts of scheduled payments for each enforceable obligation for the remainder of the time period during which the redevelopment agency would have been authorized to obligate property tax increment had the redevelopment agency not been
The Recognized Obligation Payment Schedule is submitted to and duly approved by the oversight board. The successor agency shall submit a copy of the Recognized Obligation Payment Schedule to the county auditor-controller, and the Department of Finance at the same time that the successor agency submits the Recognized Obligation Payment Schedule to the oversight board for approval.

A copy of the approved Recognized Obligation Payment Schedule is submitted to the county auditor-controller and both the Controller’s office and the Department of Finance and be posted on the successor agency’s Internet Web site.

The Recognized Obligation Payment Schedule shall be forward looking to the next six months. The first Recognized Obligation Payment Schedule shall be submitted to the Controller’s office and the Department of Finance by April 15, 2012, for the period of January 1, 2012, to June 30, 2012, inclusive. This Recognized Obligation Payment Schedule shall include all payments made by the former redevelopment agency between January 1, 2012, through January 31, 2012, and shall include all payments proposed to be made by the successor agency from February 1, 2012, through June 30, 2012. Former redevelopment agency enforceable obligation payments due, and reasonable or necessary administrative costs due or incurred, prior to January 1, 2012, shall be made from property tax revenues received in the spring of 2011 property tax distribution, and from other revenues and balances transferred to the successor agency.

The Recognized Obligation Payment Schedule for the period of January 1, 2013, to June 30, 2013, shall be submitted by the successor agency, after approval by the oversight board, no later than September 1, 2012. Commencing with the Recognized Obligation Payment Schedule covering the period July 1, 2013, through December 31, 2013, successor agencies shall submit an oversight board-approved Recognized Obligation Payment Schedule to the Department of Finance and to the county auditor-controller no fewer than 90 days before the date of property tax distribution. The Department of Finance shall make its determination of the enforceable obligations and the amounts and funding sources of the enforceable obligations no later than 45 days after the Recognized Obligation Payment Schedule is submitted. Within five business days of the department’s determination, a successor agency may request additional review by the department and an opportunity to meet and confer on disputed items. The meet and confer period may vary; an untimely submittal of a Recognized Obligation Payment Schedule may result in a meet and confer period of less than 30 days. The department shall notify the successor agency and the county auditor-controllers as to the outcome of its review at least 15 days before the date of property tax distribution.

The successor agency shall submit a copy of the Recognized Obligation Payment Schedule to the Department of Finance electronically, and the successor agency shall complete the Recognized Obligation Payment Schedule in the manner provided for by the department. A successor agency shall be in noncompliance with this paragraph if it only submits to the department an electronic message or a letter stating that the

http://www.leginfo.ca.gov/pub/13-14/bill/sen/sb_1101-1150/sb_1129_bill_20140219_introduced.htm
oversight board has approved a Recognized Obligation Payment Schedule.

(2) If a successor agency does not submit a Recognized Obligation Payment Schedule by the deadlines provided in this subdivision, the city, county, or city and county that created the redevelopment agency shall be subject to a civil penalty equal to ten thousand dollars ($10,000) per day for every day the schedule is not submitted to the department. The civil penalty shall be paid to the county auditor-controller for allocation to the taxing entities under Section 34183. If a successor agency fails to submit a Recognized Obligation Payment Schedule by the deadline, any creditor of the successor agency or the Department of Finance or any affected taxing entity shall have standing to and may request a writ of mandate to require the successor agency to immediately perform this duty. Those actions may be filed only in the County of Sacramento and shall have priority over other civil matters. Additionally, if an agency does not submit a Recognized Obligation Payment Schedule within 10 days of the deadline, the maximum administrative cost allowance for that period shall be reduced by 25 percent.

(3) If a successor agency fails to submit to the department an oversight board-approved Recognized Obligation Payment Schedule that complies with all requirements of this subdivision within five business days of the date upon which the Recognized Obligation Payment Schedule is to be used to determine the amount of property tax allocations, the department may determine if any amount should be withheld by the county auditor-controller for payments for enforceable obligations from distribution to taxing entities, pending approval of a Recognized Obligation Payment Schedule. The county auditor-controller shall distribute the portion of any of the sums withheld pursuant to this paragraph to the affected taxing entities in accordance with paragraph (4) of subdivision (a) of Section 34183 upon notice by the department that a portion of the withheld balances are in excess of the amount of enforceable obligations. The county auditor-controller shall distribute withheld funds to the successor agency only in accordance with a Recognized Obligation Payment Schedule approved by the department. County auditor-controllers shall lack the authority to withhold any other amounts from the allocations provided for under Section 34183 or 34188, unless required by a court order.

(n) Cause a postaudit of the financial transactions and records of the successor agency to be made at least annually by a certified public accountant.

SEC. 2.
Section 34177.5 of the Health and Safety Code is amended to read:

34177.5.
(a) In addition to the powers granted to each successor agency, and notwithstanding anything in the act adding this part, including, but not limited to, Sections 34162 and 34189, a successor agency shall have the authority, rights, and powers of the redevelopment agency to which it succeeded solely for the following purposes:

(1) For the purpose of issuing bonds or incurring other indebtedness to refund the bonds or other indebtedness of its former
redevelopment agency or of the successor agency to provide savings to the successor agency, provided that (A) the total interest cost to maturity on the refunding bonds or other indebtedness plus the principal amount of the refunding bonds or other indebtedness shall not exceed the total remaining interest cost to maturity on the bonds or other indebtedness to be refunded plus the remaining principal of the bonds or other indebtedness to be refunded, and (B) the principal amount of the refunding bonds or other indebtedness shall not exceed the amount required to defease the refunded bonds or other indebtedness, to establish customary debt service reserves, and to pay related costs of issuance. If the foregoing conditions are satisfied, the initial principal amount of the refunding bonds or other indebtedness may be greater than the outstanding principal amount of the bonds or other indebtedness to be refunded. The successor agency may pledge to the refunding bonds or other indebtedness the revenues pledged to the bonds or other indebtedness being refunded, and that pledge, when made in connection with the issuance of such refunding bonds or other indebtedness, shall have the same lien priority as the pledge of the bonds or other obligations to be refunded, and shall be valid, binding, and enforceable in accordance with its terms.

(2) For the purpose of issuing bonds or other indebtedness to finance debt service spikes, including balloon maturities, provided that (A) the existing indebtedness is not accelerated, except to the extent necessary to achieve substantially level debt service, and (B) the principal amount of the bonds or other indebtedness shall not exceed the amount required to finance the debt service spikes, including establishing customary debt service reserves and paying related costs of issuance.

(3) For the purpose of amending an existing enforceable obligation under which the successor agency is obligated to reimburse a political subdivision of the state for the payment of debt service on a bond or other obligation of the political subdivision, or to pay all or a portion of the debt service on the bond or other obligation of the political subdivision to provide savings to the successor agency, provided that (A) the enforceable obligation is amended in connection with a refunding of the bonds or other obligations of the political subdivision so that the enforceable obligation will apply to the refunding bonds or other refunding indebtedness of the political subdivision, (B) the total interest cost to maturity on the refunding bonds or other indebtedness plus the principal amount of the refunding bonds or other indebtedness shall not exceed the total remaining interest cost to maturity on the bonds or other indebtedness to be refunded, and (C) the principal amount of the refunding bonds or other indebtedness shall not exceed the amount required to defease the refunded bonds or other indebtedness, to establish customary debt service reserves and to pay related costs of issuance. The pledge set forth in that amended enforceable obligation, when made in connection with the execution of the amendment of the enforceable obligation, shall have the same lien priority as the pledge in the enforceable obligation prior to its amendment and shall be valid, binding, and enforceable in accordance with its terms.
(4) For the purpose of issuing bonds or incurring other indebtedness to make payments under enforceable obligations when the enforceable obligations include the irrevocable pledge of property tax increment, formerly tax increment revenues prior to the effective date of this part, or other funds and the obligation to issue bonds secured by that pledge. The successor agency may pledge to the bonds or other indebtedness the property tax revenues and other funds described in the enforceable obligation, and that pledge, when made in connection with the issuance of the bonds or the incurring of other indebtedness, shall be valid, binding, and enforceable in accordance with its terms. This paragraph shall not be deemed to authorize a successor agency to increase the amount of property tax revenues pledged under an enforceable obligation or to pledge any property tax revenue not already pledged pursuant to an enforceable obligation. This paragraph does not constitute a change in, but is declaratory of, the existing law.

(b) The refunding bonds authorized under this section may be issued under the authority of Article 11 (commencing with Section 53580) of Chapter 3 of Part 1 of Division 2 of Title 5 of the Government Code, and the refunding bonds may be sold at public or private sale, or to a joint powers authority pursuant to the Marks-Roos Local Bond Pooling Act (Article 4 (commencing with Section 6584) of Chapter 5 of Division 7 of Title 1 of the Government Code).

(c) (1) Prior to incurring any bonds or other indebtedness pursuant to this section, the successor agency may subordinate to the bonds or other indebtedness the amount required to be paid to an affected taxing entity pursuant to paragraph (1) of subdivision (a) of Section 34183, provided that the affected taxing entity has approved the subordinations pursuant to this subdivision.

(2) At the time the successor agency requests an affected taxing entity to subordinate the amount to be paid to it, the successor agency shall provide the affected taxing entity with substantial evidence that sufficient funds will be available to pay both the debt service on the bonds or other indebtedness and the payments required by paragraph (1) of subdivision (a) of Section 34183, when due.

(d) An action may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure to determine the validity of bonds or other obligations authorized by this section, the pledge of revenues to those bonds or other obligations authorized by this section, the legality and validity of all proceedings theretofore taken and, as provided in the resolution of the legislative body of the successor agency authorizing the bonds or other obligations authorized by this section, proposed to be taken for the authorization, execution, issuance, sale, and delivery of the bonds or other obligations
authorized by this section, and for the payment of debt service on
the bonds or the payment of amounts under other obligations
authorized by this section. Subdivision (c) of Section 33501 shall
not apply to any such action. The Department of Finance shall be
notified of the filing of any action as an affected party.
(e) Notwithstanding any other law, including, but not limited
to, Section 33501, an action to challenge the issuance of bonds,
the incurrence of indebtedness, the amendment of an enforceable
obligation, or the execution of a financing agreement by a successor
agency shall be brought within 30 days after the date on which the
oversight board approves the resolution of the successor agency
approving the issuance of bonds, the incurrence of indebtedness,
the amendment of an enforceable obligation, or the execution of
a financing agreement authorized under this section.
(f) The actions authorized in this section shall be subject to the
approval of the oversight board, as provided in Section 34180.
Additionally, an oversight board may direct the successor agency
to commence any of the transactions described in subdivision (a)
so long as the successor agency is able to recover its related costs
in connection with the transaction. After a successor agency, with
approval of the oversight board, issues any bonds, incurs any
indebtedness, or executes an amended enforceable obligation
pursuant to subdivision (a), the oversight board shall not
unilaterally approve any amendments to or early termination of
the bonds, indebtedness, or enforceable obligation. If, under the
authority granted to it by subdivision (h) of Section 34179, the
Department of Finance either reviews and approves or fails to
request review within five business days of an oversight board
approval of an action authorized by this section, the scheduled
payments on the bonds or other indebtedness shall be listed in the
Recognized Obligation Payment Schedule and shall not be subject
to further review and approval by the department or the Controller.
The department may extend its review time to 60 days for actions
authorized in this section and may seek the assistance of the
Treasurer in evaluating proposed actions under this section.
(g) Any bonds, indebtedness, or amended enforceable obligation
authorized by this section shall be considered indebtedness incurred
by the dissolved redevelopment agency, with the same legal effect
as if the bonds, indebtedness, financing agreement, or amended
enforceable obligation had been issued, incurred, or entered into
prior to June 29, 2011, in full conformity with the applicable
provisions of the Community Redevelopment Law that existed
prior to that date, shall be included in the successor agency’s
Recognized Obligation Payment Schedule, and shall be secured
by a pledge of, and lien on, and shall be repaid from moneys
deposited from time to time in the Redevelopment Property Tax
Trust Fund established pursuant to subdivision (c) of Section
34172, as provided in paragraph (2) of subdivision (a) of Section
34183. Property tax revenues pledged to any bonds, indebtedness,
or amended enforceable obligations authorized by this section are
taxes allocated to the successor agency pursuant to subdivision (b)
of Section 33670 and Section 16 of Article XVI of the California
Constitution.
(h) The successor agency shall make diligent efforts to ensure
that the lowest long-term cost financing is obtained. The financing
shall not provide for any bullets or spikes and shall not use variable

http://www.leginfo.ca.gov/pub/13-14/bill/sen/sb_1101-1150/sb_1129_bill_20140219_introduced.htm
rates. The successor agency shall make use of an independent
financial advisor in developing financing proposals and shall make
the work products of the financial advisor available to the
Department of Finance at its request.

(i) (1) If an enforceable obligation provides for an irrevocable
commitment of property tax revenue and where allocation of such
revenues is expected to occur over time, the successor agency may
petition the Department of Finance to provide written confirmation
that its determination of such enforceable obligation as approved
in a Recognized Obligation Payment Schedule is final and
conclusive, and reflects the department’s approval of subsequent
payments made pursuant to the enforceable obligation. If the
confirmation is granted, then the department’s review of such
payments in future Recognized Obligation Payment Schedules
shall be limited to confirming that they are required by the prior
enforceable obligation.

(2) Prior to removal of an enforceable obligation from a
recognized obligation payment schedule for a successor agency
that has received a finding of completion from the Department of
Finance under Section 34179.7, the action shall be submitted to
the oversight board for review and approval.

(j) The successor agency may request that the department
provide a written determination to waive the two-year statute of
limitations on an action to review the validity of the adoption or
amendment of a redevelopment plan pursuant to subdivision (c)
of Section 33500 or on any findings or determinations made by
the agency pursuant to subdivision (d) of Section 33500. The
department at its discretion may provide a waiver if it determines
it is necessary for the agency to fulfill an enforceable obligation.

SEC. 3.
Section 34180 of the Health and Safety Code is
amended to read:

34180.
All of the following successor agency actions shall first
be approved by the oversight board:

(a) The establishment of new repayment terms for outstanding
loans where the terms have not been specified prior to the date of
this part. An oversight board shall not have the authority to
reestablish loan agreements between the successor agency and the
city, county, or city and county that formed the redevelopment
agency except as provided in Chapter 9 (commencing with Section
34191.1).

(b) The issuance of bonds or other indebtedness or the pledge
or agreement for the pledge of property tax revenues (formerly tax
increment prior to the effective date of this part) pursuant to
subdivision (a) of Section 34177.5.

(c) Setting aside of amounts in reserves as required by
indentures, trust indentures, or similar documents governing the
issuance of outstanding redevelopment agency bonds.

(d) Merging of project areas.

(e) Continuing the acceptance of federal or state grants, or other
forms of financial assistance from either public or private sources,
if that assistance is conditioned upon the provision of matching
funds, by the successor entity as successor to the former
redevelopment agency, in an amount greater than 5 percent.

(f) (1) If a city, county, or city and county wishes to retain any
properties or other assets for future redevelopment activities,
funded from its own funds and under its own auspices, it must
reach a compensation agreement with the other taxing entities to
provide payments to them in proportion to their shares of the base
property tax, as determined pursuant to Section 34188, for the
value of the property retained.
(2) If no other agreement is reached on valuation of the retained
assets, the value will be the fair market value as of the 2011
property tax lien date as determined by an independent appraiser
approved by the oversight board.

(3) This subdivision does not apply to the disposition of
properties pursuant to a long-range property management plan.

(g) Establishment of the Recognized Obligation Payment
Schedule.

(h) A request by the successor agency to enter into an agreement
with the city, county, or city and county that formed the
redevelopment agency that it is succeeding. An oversight board
shall not have the authority to reestablish loan agreements between
the successor agency and the city, county, or city and county that
formed the redevelopment agency except as provided in Chapter
9 (commencing with Section 34191.1). Any actions to reestablish
any other agreements that are in furtherance of enforceable
obligations, with the city, county, or city and county that formed
the redevelopment agency are invalid until they are included in an
approved and valid Recognized Obligation Payment Schedule.

(i) A request by a successor agency or taxing entity to pledge,
or to enter into an agreement for the pledge of, property tax
revenues pursuant to subdivision (b) of Section 34178.

(j) Any document submitted by a successor agency to an
oversight board for approval by any provision of this part shall
also be submitted to the county administrative officer, the county
auditor-controller, and the Department of Finance at the same time
that the successor agency submits the document to the oversight
board.

SEC. 4.
Section 34191.3 of the Health and Safety Code is
amended to read:

34191.3.

Notwithstanding Section 34191.1, the requirements
specified in subdivision (e) of Section 34177 and subdivision (a)
of Section 34181 shall be suspended, except as those provisions
apply to the transfers for governmental use, until the Department
of Finance has approved a long-range property management plan
pursuant to subdivision (b) of Section 34191.5, at which point the
plan shall govern, and supersede all other provisions relating to,
the disposition and use of the real property assets of the former
redevelopment agency, including, but not limited to, subdivision
(f) of Section 34180. If the department has not approved a plan by
January 1, 2015, subdivision (e) of Section 34177 and subdivision
(a) of Section 34181 shall be operative with respect to that
successor agency.

SEC. 5.
Section 34191.4 of the Health and Safety Code is
amended to read:

34191.4.
The following provisions shall apply to any successor

http://www.leginfo.ca.gov/pub/13-14/bill/sen/sb_1101-1150/sb_1129_bill_20140219_introduced.htm
agency that has been issued a finding of completion by the
Department of Finance:

(a) All real property and interests in real property identified in
subparagraph (C) of paragraph (5) of subdivision (c) of Section
34179.5 shall be transferred to the Community Redevelopment
Property Trust Fund of the successor agency upon approval by the
Department of Finance of the long-range property management
plan submitted by the successor agency pursuant to subdivision
(b) of Section 34191.7 unless that property is subject to the
requirements of any existing enforceable obligation.

(b) (1) Notwithstanding subdivision (d) of Section 34171, upon
application by the successor agency and approval by the oversight
board, loan agreements entered into between the redevelopment
agency and the city, county, or city and county that created by the
redevelopment agency shall be deemed to be enforceable
obligations provided that the oversight board makes a finding that
the loan was for legitimate redevelopment purposes.

(2) If the oversight board finds that the loan is an enforceable
obligation, the accumulated interest on the remaining principal
amount of the loan shall be recalculated from origination at the
interest rate earned by funds deposited into the Local Agency
Investment Fund. The loan shall be repaid to the city, county, or
city and county in accordance with a defined schedule over a
reasonable term of years at an interest rate not to exceed the interest
rate earned by funds deposited into the Local Agency Investment
Fund. The annual loan repayments provided for in the recognized
obligations payment schedules shall be subject to all of the
following limitations:

(A) Loan repayments shall not be made prior to the 2013-14
fiscal year. Beginning in the 2013-14 fiscal year, the maximum
repayment amount authorized each fiscal year for repayments
made pursuant to this subdivision and paragraph (7) of subdivision
(e) of Section 34176 combined shall be equal to one-half of the
increase between the amount distributed to the taxing entities
pursuant to paragraph (4) of subdivision (a) of Section 34183 in
that fiscal year and the amount distributed to taxing entities
pursuant to that paragraph in the 2012-13 base year. Loan or
deferral repayments made pursuant to this subdivision shall be
second in priority to amounts to be repaid pursuant to paragraph
(7) of subdivision (e) of Section 34176.

(B) Repayments received by the city, county or city and county
that formed the redevelopment agency shall first be used to retire
any outstanding amounts borrowed and owed to the Low and
Moderate Income Housing Fund of the former redevelopment
agency for purposes of the Supplemental Educational Revenue
Augmentation Fund and shall be distributed to the Low and
Moderate Income Housing Asset Fund established by subdivision
(d) of Section 34176.

(C) Twenty percent of any loan repayment shall be deducted
from the loan repayment amount and shall be transferred to the
Low and Moderate Income Housing Asset Fund, after all
outstanding loans from the Low and Moderate Income Housing
Fund for purposes of the Supplemental Educational Revenue
Augmentation Fund have been paid.

(c) (1) Bond proceeds derived from bonds issued on or before
December 31, 2010, shall be used for the purposes for which the
bonds were sold.

(2) (A) Notwithstanding Section 34177.3 or any other conflicting provision of law, bond proceeds in excess of the amounts needed to satisfy approved enforceable obligations shall thereafter be expended in a manner consistent with the original bond covenants. Enforceable obligations may be satisfied by the creation of reserves for projects that are the subject of the enforceable obligation and that are consistent with the contractual obligations for those projects, or by expending funds to complete the projects. An expenditure made pursuant to this paragraph shall constitute the creation of excess bond proceeds obligations to be paid from the excess proceeds. Excess bond proceeds obligations shall be listed separately on the Recognized Obligation Payment Schedule submitted by the successor agency.

(B) If remaining bond proceeds cannot be spent in a manner consistent with the bond covenants pursuant to subparagraph (A), the proceeds shall be used to defease the bonds or to purchase those same outstanding bonds on the open market for cancellation.

(d) Notwithstanding subdivision (b) of Section 34163, if a successor agency has received a finding of completion, the successor agency may enter into, or amend existing, contracts and agreements, or otherwise administer projects in connection with enforceable obligations approved pursuant to subdivision (m) of Section 34177, including the substitution of private developer capitol in a disposition and development agreement that has been deemed an enforceable obligation, if the contract, agreement, or project will not commit new property tax funds, and will not otherwise reduce property tax revenues or payments made pursuant to paragraph (4) of subdivision (a) of Section 34183 to the taxing agencies.

SEC. 6.

Section 34191.5 of the Health and Safety Code is amended to read:

34191.5.

(a) There is hereby established a Community Redevelopment Property Trust Fund, administered by the successor agency, to serve as the repository of the former redevelopment agency's real properties identified in subparagraph (C) of paragraph (5) of subdivision (c) of Section 34179.5.

(b) The successor agency shall prepare a long-range property management plan that addresses the disposition and use of the real properties of the former redevelopment agency. The report shall be submitted to the oversight board and the Department of Finance for approval no later than six months following the issuance to the successor agency of the finding of completion.

(c) The long-range property management plan shall do all of the following:

(1) Include an inventory of all properties in the trust. The inventory shall consist of all of the following information:

(A) The date of the acquisition of the property and the value of the property at that time, and an estimate of the current value of the property.

(B) The purpose for which the property was acquired.

(C) Parcel data, including address, lot size, and current zoning in the former agency redevelopment plan or specific, community, or general plan.
(D) An estimate of the current value of the parcel including, if available, any appraisal information.

(E) An estimate of any lease, rental, or any other revenues generated by the property, and a description of the contractual requirements for the disposition of those funds.

(F) The history of environmental contamination, including designation as a brownfield site, any related environmental studies, and history of any remediation efforts.

(G) A description of the property’s potential for transit-oriented development and the advancement of the planning objectives of the successor agency.

(H) A brief history of previous development proposals and activity, including the rental or lease of property.

(2) Address the use or disposition of all of the properties in the trust. Permissible uses include the retention of the property for governmental use pursuant to subdivision (a) of Section 34181, the retention of the property for future development, the sale of the property, or the use of the property to fulfill an enforceable obligation. The plan shall separately identify and list properties in the trust dedicated to governmental use purposes and properties retained for purposes of fulfilling an enforceable obligation. With respect to the use or disposition of all other properties, all of the following shall apply:

(A) If the plan directs the use or liquidation of the property for a project identified in an approved redevelopment plan, the property shall transfer to the city, county, or city and county.

(B) If the plan directs the liquidation of the property or the use of revenues generated from the property, such as lease or parking revenues, for any purpose other than to fulfill an enforceable obligation or other than that specified in subparagraph (A), the proceeds from the sale shall be distributed as property tax to the taxing entities.

(C) Property shall not be transferred to a successor agency, city, county, or city and county, unless the long-range property management plan has been approved by the oversight board and the Department of Finance.

(d) The department shall not require a compensation agreement or agreements as part of the approval of a long-range property management plan.

(e) The department shall only consider whether the long-range property management plan makes a good faith effort to address the requirements set forth in subdivision (c).

(f) The department shall approve long-range property management plans as expeditiously as possible.
Specific Site Costs
Specific Site Costs

These item cost numbers assume that the site will be leveled, clean, and graded 1’ below the final grade by the demolition crew. If the site is level with the final grade, approximately 55 cubic yards of soil will need to be removed and additional costs will be incurred.

Maintenance cost estimates range from $.60-.96 / ft² annually. Approximately 44 full and 52 brief visits per year at this rate. Includes simple mowing, trimming, sweeping and blowing of site.
