<tr>
<th>M-1” District (Light Industrial)</th>
</tr>
</thead>
</table>

**Intent**
- To provide for light industrial, manufacturing and processing uses in suitable areas.
- To promote a desirable and attractive working environment with a minimum of detriment to surrounding properties. All uses must meet performance standards for noise, vibrations, odor, emissions, inflammable or explosive material. All uses must be conducted within an enclosed building.

**Where Used**
- Rarely used now. Most industrial development is within city jurisdictions.

**Permitted Uses**
- **Include** – Uses may include any manufacturing, processing, assembling, research, wholesale, storage, or utility use conducted entirely within an enclosed building other than those specified as conditional uses in the M-1 or M-2 Districts.

**Conditional Uses**
- **Include** – Uses related to light industrial such as a restaurant or store oriented to district uses, enclosed outdoor storage yard, animal hospital, kennel, gasoline storage, indoor recreational facility, retail sales of industrial and building materials or equipment, concrete or asphalt batch plant, and a service station.

**Building Site**
- **Minimum Area** – 20,000 sq. ft.  
- **Median Lot Width** – 100’

**Minimum Setbacks**
- **Front Yard** – 20’  
- **Rear Yard** – 20’  
- **Side Yard** – 10’ (exception: 30’ if property is next to a residential district.)

**Height**
- **Maximum** – 45’

**Lot Coverage**
- No requirement.

**Site Development Review**
- Required for new buildings of 1,000 sq. ft. and over, or where the aggregate of additions since 1977 will result in a total area of 1,000 sq., ft. and over.

**Signs**
- Business wall and freestanding or wall and projecting signs (25 sq. guaranteed minimum). Low-profile sign. Non-illuminated identification signs. Others may be allowed under a Conditional Use Permit. No moving, flashing or intermittent signs. No signs oriented to adjacent residential districts. Size limits vary; consult with Planning Department.

The following are general explanations of common zoning and planning terms only. For the full technical definition, please refer to the Alameda County Zoning Ordinance or consult with the Planning Department.

## DEFINITIONS

### Zoning District
All land in unincorporated Alameda County is classified in one of several Zoning Districts. Each District is established to encourage and regulate specific land uses, as set forth in the County General Plan and Zoning Ordinance. Some areas are zoned for residential uses, while others are zoned for commercial, agricultural or industrial uses.

### Combining District
A District that is attached to another Zoning District in order to add or modify the regulations of that Zoning District. For example, a Combining District can specify certain minimum building site area requirements, vary the intensity of the development, allow additional uses, or change the minimum setback requirements of a given Zoning District.

### Permitted Use
A land use allowed as a matter of right in a given Zoning District. Other District requirements, such as Site Development Review and setbacks, may still apply.

### Conditional Use
A land use which may be allowed on a given Zoning District, subject to a Conditional Use Permit, depending on the specific circumstances of the application. Other District requirements such as Site Development Review and setbacks may still apply. In addition to those specifically listed for a given District, the following uses are conditionally permitted in any District: airport, disaster or fallout shelter, church or publicly funded, licensed or operated group rehabilitation living quarters.

### Building Site
Land area to be considered as a site for buildings or other uses. Must meet minimum District regulations for lot size, street frontage, yards, open space and parking area. May consist of one or more recorded lots, either under one ownership or as a condominium, to be considered as a unit.

### Setback
Loosely corresponds to the term “yard.” The setbacks are an area between a structure and a lot line. It must be kept open and unobstructed.

- **Front Yard** – The area between the front lot line and the front setback line.
- **Rear Yard** – The area between the rear lot line (generally opposite the front lot line) and the rear setback line.
- **Side Yard** – The area between a side lot line (any lot line that is neither the front nor the rear lot line) and the side setback line.
- **Street Side Yard** – The area on the corner lot between the longer street frontage and the street side setback line.

### Height
The height of a building measured as the vertical distance between the average level of the highest and lowest points of that portion of the lot covered by the building to the topmost point of the structure.

### Lot Coverage
The maximum portion of the lot on which the structure may be built.

### Site Development Review
A procedure to review a proposed development in order to ensure that new buildings or land uses are compatible with their sites, and with the surrounding environment, other development and traffic circulation.
