Governor Newsom issued Executive Order N-33-20 directing all residents to heed immediately to current State public health directives to shelter-in-place (SIP). While school closures ensued, child care was deemed part of the essential infrastructure and workforce. Since the inception of SIP, the Alameda County Emergency Child Care Response Team has actively worked to develop a coordinated child care ecosystem for the intake and referral process. This data dashboard highlights key features of the system including existing care in Alameda County. The dashboard consists of three parts 1) Alameda County Subsidy* Utilization, 2) Child Care Supply. Since the SIP Order, demand for child care has fluctuated and will continue to do so as health orders and economic conditions change.
