

Alameda County Planning Council Goals

Dear Planning Council Steering Committee Members,

Supporting our Local Planning Council Steering Committee members to understand the Early Care and Education System and to take action are two key areas that you have identified for our work at the Planning Council. We have developed this survey in order to understand what you need to take action, and the variety of actions that members may be taking. We hope to use this survey periodically to understand how we can support you.

Your responses are voluntary and will be confidential. Responses will not be identified individually. All responses will be compiled and analyzed (aggregated) together as a group.
